Attacks on schools continued in Jammu and Kashmir and some eastern states in this reporting period. GCPEA also identified over 55 incidents of attacks on school students and teachers, primarily involving the use of excessive force during education-related protests. Attacks on higher education appeared to decline in 2020 and 2021 compared to a peak in 2019.

Context

During the 2020-2021 reporting period, India continued to experience low-grade violence in Jammu and Kashmir, and the areas affected by the Naxalite insurgency, while tensions over state borders surfaced. The Bharatiya Janata Party retained majority power in parliament.782

Low-grade violence continued in Jammu and Kashmir in 2020 and 2021.783 Cross-border shelling between Indian and Pakistani forces persisted, killing at least ten civilians in one day in November 2020, including an eight-year-old child.784 After months of internet shutdown during the security lockdown in India-administered Kashmir, the Supreme Court ruled that the internet was a fundamental right in January 2020.785 Although the government reinstated internet to the region as a result, only slow speed access was permitted until February 2021, limiting medical care and children’s access to virtual classes, according to local media.786 Human Rights Watch and the media also reported that the government arbitrarily detained politicians, activists, and journalists.787

Civilians were harmed during the reporting period in the decades-old conflict between the Naxalite opposition group and government forces, in the central and eastern states of Chhattisgarh, Bihar, and Jharkhand, among others, according to International Crisis Group and local media.788 Separately, along the border between the states of Assam and Mizoram, tensions reemerged in October 2020 over disputed territorial boundaries,789 with huts burnt down in alleged mob violence and stone pelting along the border.790 In late 2020, volunteers temporarily established checkpoints to prevent travel between the two states.791 The government sent central paramilitary forces to the region to ease tensions, as reported by local media.792

In addition to widespread farmers’ protests, marches against the 2019 Citizenship Amendment Act continued in 2020 and students demonstrated against education-related grievances throughout the reporting period.793 Human Rights Watch reported that many arrests of students and activists were attempts to silence political dissent.794

In July 2021, monsoon rains displaced thousands of families and 375,000 children in Bihar state, some of whom sought shelter in schools.795 Southern Kerala also experienced flash floods in October 2021, causing the death of five children.796

In March 2020, the government closed schools to limit the spread of Covid-19, affecting over 290 million students, according to the UN.797 State governments began to reopen schools in September 2021, although some schools remained closed through May 2021,798 with most states providing alternative education programs.799 Despite provisions, some students from marginalized communities faced barriers to accessing education, such as lack of awareness about the programs.800 According to the UN, only about 15 percent of rural households and 42 percent of urban households had access to the internet, limiting access to virtual learning.801

Attacks on Schools

During the 2020-2021 reporting period, GCPEA identified at least eight reported attacks on schools. Attacks appeared to decline in comparison to 2019, when GCPEA collected more than 25 reported incidents, some of which occurred in schools used as polling stations during elections for the lower house of parliament that year.802 However, the rate of attacks on schools appeared to peak in 2019; in 2018, GCPEA gathered four such reports.803 Across both reporting periods, schools used as polling stations were reportedly attacked, and impacted states or union territories included Bihar, Jammu and Kashmir, Jharkhand, and Uttar Pradesh.804

In 2020, GCPEA collected two reports of attacks on schools from local media reports:

- On January 13, 2020, unidentified assailants reportedly threw makeshift explosives at a school bus driving ap-
proximately 20 students from a public school home after classes in Allahabad city, Uttar Pradesh state. According to media reports, two students were injured and bus windows were damaged in the blast.805

- On February 18, 2020, alleged armed group members planted explosives in a school in Gaya, Bihar state, destroying the building. The school was reportedly closed at the time of the attack and no injuries were recorded. Local media reported that pamphlets left nearby mentioned that Indian security forces were occupying schools.806

In 2021, GCPEA identified six reported attacks on schools in Jammu and Kashmir union territory and Bihar, Jharkhand, and West Bengal states:

- On February 20, 2021, an explosion reportedly occurred at a private school in Haril town, Jammu and Kashmir union territory, injuring a janitor. According to a police officer interviewed by local media outlet Greater Kashmir, the incident appeared to result from an unexploded shell on the school grounds.807

At the time, the schools were used as polling stations in the Kolkata Municipal Corporation elections. Three people were reportedly injured in the Taki Boy’s School incident.811

In addition, GCPEA identified four reports of explosions in schools along the Mizoram and Assam state borders in 2020 and 2021,812 although it remained unclear whether the violence was related to armed conflict. For example:

- On October 22, 2020, unidentified assailants planted explosives at a school near Saihapui V village, in Mizoram state, according to media reports. No injuries were recorded from the blast, although the school building was reportedly destroyed.813

- Unidentified assailants reportedly planted explosives at a primary school in Dholai village, Assam state, destroying the school, on November 7, 2020, as reported by local media; no casualties were reported.814

Attacks on school students, teachers, and other education personnel

During the 2020-2021 reporting period, GCPEA collected at least 55 reported incidents of attacks on school students, teachers, and other education personnel. These incidents involved the reported arrest or detention of more than 1,600 students or educators. In comparison, GCPEA identified at least 25 and 15 reports of attacks on school students and personnel in 2019 and 2018, respectively.816 Incidents in 2020 and 2021 generally involved the police using excessive force against student, parent, and teacher protesters, rather than reported injuries or killings perpetrated by non-state armed groups, which occurred with more frequency in Education under Attack 2020, which covered 2017 to 2019.817

In 2020, GCPEA identified four reports of attacks on students, teachers, and personnel from media reports.818 For example:

appuram city, Kerala state, to demand textbooks which were supposed to be distributed at the beginning of the academic year, two weeks prior. GCPEA did not identify any instances of military use in 2021.

Attacks on higher education
In 2020 and 2021, GCPEA identified approximately 65 reported attacks on higher education. During the reporting period, the police reportedly detained or arrested more than 500 students and education personnel and otherwise used excessive force against higher education students and personnel in connection with on-campus or education-related protests. Attacks on higher education this reporting period continued a trend from Education under Attack 2020, when the majority of reported incidents also involved protest repression, rather than attacks on higher education facilities. Attacks on higher education appeared to decline in 2020 and 2021 compared to 2019, when GCPEA collected nearly 50 reported incidents.831

In 2020, GCPEA identified approximately 28 reported incidents of attacks on higher education, almost all of which in-
involved protest repression. For instance:

Students and their family members were released after several hours, according to Scholars at Risk and local media.

In 2021, GCPEA identified more than 35 reported attacks on higher education from media reports, involving both protest repression and attacks on education facilities. For instance:
